center for skin & body

Enjoy
the skin
you're in...™

Welcome

We all want to look and feel our best. When we do, the positive effects ripple throughout our entire lives, boosting our confidence, banishing our insecurities; and most of all, reflecting our inner beauty. Let us help you find your inner and outer beauty with the wide variety of services offered by the experienced Physicians and staff of Reflections.

There's no better time to experience the benefits of Cosmetic Medicine. Whether you're interested in laser treatments, facial fillers or Botox®, these procedures are extremely safe and effective; most require little to no recovery time and they provide long lasting, natural appearing results.

At Reflections, Cosmetic Medicine is our specialty. For more than a decade, Reflections has been recognized for having the most comprehensive and innovative programs for cosmetic rejuvenation in the state.

Our complete focus on Cosmetic Medicine means that we offer an unmatched level of attention and technological sophistication that ensures better results and your complete satisfaction.

We look forward to seeing you at Reflections and partnering in your aesthetic care.

Mitchell Chasin, M.D.

Reflections™

center for skin & body

Wrinkle Treatments

Your lines and wrinkles are no match for our wide array of anti-aging treatments such as the Fraxel Re:store™ and Fraxel Re:pair™ lasers, Portrait™ Plasma Resurfacing and Erbium laser peels. These advanced technologies will leave the skin smoother, firmer and more radiant while reducing pore size and uneven skin tone.

For deep wrinkles and creases, consider the addition of Botox® Cosmetic injections and dermal fillers like Restylane® or Juvederm®.

Brown Spots

Brown spots on the face, hands and chest betray your age and require lots of makeup to cover. Banish these tell-tale spots with a Photofacial, Fraxel® or Q switched laser treatment. It will take years off your complexion (and time off your daily routine).

Broken Capillaries

The Vbeam®, GentleYag® and Diolite® lasers as well as the Starlux® IPL instantly zap away broken capillaries and spider veins on the face and legs with no downtime.

Skin Tightening

Need a lift? If you're looking for a pick-me-up without committing to multiple treatments or down time, we'd love to tell you more about Thermage®. It's a safe, comfortable treatment proven to tighten, contour and lift skin of the face, neck or body, in a single treatment.

Stretch Mark Treatments

Stretch marks can be the unfortunate calling card of a happy event like pregnancy or weight loss. Watch them fade away after a series of combination laser therapies using Fraxel® and Vbeam®.

Eye Rejuvenation

You get enough rest but people still say you look tired. Give your eyes a wakeup call without surgery. Instantly fix hollowness with Restylane®, wrinkles with the Fraxel Re:pair™ laser, Thermage® or Portrait® and those annoying crow's feet with Botox® Cosmetic. You'll look refreshed and years younger.

Chest, Neck and Hands

Don't neglect your chest, neck and hands. These often overlooked areas are very sensitive to sun damage which causes sun spots, wrinkles and loose skin which can detract from a youthful appearance. Specialized laser technologies and dermal fillers will turn back the 'hands' of time in these regions.

Services for Men

Men represent a fast growing part of Reflection's clientele and trust us to provide customized treatments to make them look and feel better.

Latest Technologies

Fraxel Re:pair™ Laser

A true breakthrough in laser technology, the new Fraxel Re:pair™ laser offers the benefits of multiple lasers in one, saving you valuable time and money while providing incredible results. Regain youthful, radiant skin on your face, neck and chest by reducing fine lines and wrinkles, banishing age spots and tightening skin - in just one treatment. The Re:pair™ laser achieves results never thought possible with lasers and without invasive cosmetic surgery.

Eyelash Extensions

Let our talented team enhance the natural beauty of your eyes with Xtreme™ eyelash extensions. Lash-by-lash, our certified aestheticians meticulously apply natural-looking extensions that add pop and drama to your eyes without excessive makeup.

Cosmelan® Treatments

If pregnancy or birth control pills have left you with annoying brown marks, Cosmelan® therapy is here to help.

Laser Acne Therapy

When acne breakouts make you want to hide, it's time for some serious therapy—laser therapy. Our experienced physicians will develop a customized acne treatment program using advanced technologies and medicines for both adolescents and adults. A few of the many options include:

- Isolaz™ deep pore cleansing
- Smoothbeam®, Vbeam® and Fraxel® lasers
- Levulan® Photodynamic therapy
- iClearXL® and BLU-U®
- Sapphire 3 Photo Abrasion

Acne Scar Treatments

Erase years of acne scarring and find the smoother, younger-looking you that lies just beneath the surface. Using state-of-the-art lasers, including Fraxel®, Vbeam®, Smoothbeam® and Portrait®, as well as fillers, your custom treatment regimen awaits.

Laser Tattoo Removal

Having second thoughts about that tattoo? We can help! Our physicians use the full spectrum of available technology including the Medlite® C6, Alex TriVantage™ and Sinon Ruby Q-switched lasers so we can specifically target the colors of your tattoo and remove it as quickly as possible. Let us turn your tattoo into just a memory.

Post Pregnancy Tune up

If you're a new mom, you've got your hands full. So, let us treat you with carefully chosen technologies that address post-pregnancy concerns like stretch marks, melasma and loose skin with minimal time commitment.

Botox® Cosmetic and Dermal Fillers

Botox® Cosmetic

The world's most popular cosmetic treatment, Botox® subtly erases frown lines, forehead wrinkles and crow's feet. Our advanced techniques can also shape and lift the brows for a more awake and refreshed appearance. Our experienced physicians take the time to tailor the treatment to your desires and achieve a complete natural appearance. With Botox®, everyone will notice, but no one will know!

Dermal Fillers

Restore lost volume around your eyes, cheeks, or lips—or subtly fill in stubborn wrinkles—with the latest in dermal fillers including Restylane®, Perlane®, Juvederm®, Radiesse® and Sculptra™. Our experienced physicians will choose the right filler to achieve a natural look that lasts. Take rejuvenation to beautiful new heights.

Skin Care with our Licensed Aestheticians

Our talented team of licensed Aestheticians will design a unique treatment program that suits your skin's needs and sensitivities. After a thorough analysis of your skin, they'll recommend a regimen that combines advanced technologies and clinically-proven topical remedies. Our procedures include:

Sapphire 3 Photo Abrasion

A brilliant alternative to microdermabrasion, Sapphire Photo Abrasion is the ultimate in non-invasive skin therapy that combines exfoliation, lymphatic drainage, vitamin infusion and light therapy. The result; softer, smoother skin with fewer imperfections.

Chemical Peels

Not quite ready for a laser treatment? With a variety of tried-and-true glycolic and enzyme peels, we can formulate solutions that will remove years of fine lines, wrinkles, sun damage and uneven skin tone or just refresh your skin's natural glow.

Customized Facials

The ultimate in pampering for your skin, our professional facials will restore the delicate balance required for beautiful skin. Whether you want to overcome stubborn acne, clear pore congestion, fight the signs of aging or just pamper yourself, our Aestheticians will create a truly luxurious experience.

GentleWaves LED System

Amber® LED lights activate the skin's natural rejuvenation process and boost collagen production to restore suppleness and texture without heat, pain or downtime.

DermaWrinkle® Therapy

Novel method of delivering topical agents through the skin to treat signs of aging.

Cosmetic Surgery

Our expert team of nationally recognized, board certified Plastic Surgeons offer a full range of surgical procedures including liposuction, tummy tucks, breast augmentation, face lifts and eyelid surgery to make you look and feel more youthful and attractive.

Non Invasive Body Contouring and Cellulite Therapies

Cellulite does not discriminate and unfortunately exercise and healthy diets are not a match for this annoying condition. Options for cellulite and body contouring include:

VelaShape™

Using a combination of radiofrequency and infrared energy with gentle tissue manipulation, VelaShape™ fights cellulite and trims your figure too.

Thermage® body contouring

A revolutionary technology that contours and tightens the abdomen, hips and thighs while combating cellulite

Lipodissolve® (Mesotherapy)

Series of specialized injections which contour problem areas of the body.

DermaWave No Needle Mesotherapy™

Scared of needles? DermaWave™ provides the benefits of mesotherapy without the stick.

Massage & Body (Bridgewater only)

Relax and revitalize with a therapeutic massage from one of our expert therapists.

A few of the many options include:

Swedish

Our most popular massage, the Swedish technique provides full-body relaxation.

Reflections Signature Massage

Integration of several massage techniques, customized to your needs.

La Stone

Warm, polished river stones melt away tension through gentle strokes and pressure.
