

## The Procedure

The *Lips by Thermage* procedure is non-invasive and usually takes less than half an hour. A handpiece with a smooth, flat tip delivers radiofrequency energy, which safely heats the layers of your skin. You will be asked for your feedback on the level of heat sensation experienced during the procedure to help balance your comfort with maximum results.

## Results With a Single Treatment

The procedure generally requires only one treatment, and you can quickly get back to your normal routine.

Results vary from subtle to dramatic. Generally, improvements are immediately visible and continue for up to six months. Results are long lasting depending on your skin condition and the aging process.

## Ask How You Can Have Smoother, Fuller Looking Lips

Don't wait. Ask your doctor to show you how fast and easy it is to diminish the wrinkles around your mouth and increase the volume and fullness of your lips.

## For lips that demand a natural touch... *Lips by Thermage*

The *Lips by Thermage*™ procedure helps smooth and tighten skin for naturally fuller, more defined lips and decreased fine lines —without surgery or injections and little to no downtime.

- **Reduces fine lines.** Many patients see noticeably smoother, younger skin texture and an overall improvement of fine lines and wrinkles.
- **Adds fullness.** Lips appear fuller and more plump after treatment.
- **Increases definition.** Some patients say their lips and lip lines appear more defined.
- **Makes applying make-up easier.** Many patients say lipstick doesn't feather as much and that it stays on longer.
- **Requires a single treatment.** The procedure generally requires only one treatment and takes less than 30 minutes.

*"My sister told me my lips looked fuller and that my upper lip looks bigger!"*

- Rochelle, Orlando, FL

*"It looks like I got a filler, but I didn't have to deal with a needle."*

- Alicia, Orlando, FL

Side effects are generally mild and may include redness, swelling, blisters, bumps and rare instances of surface irregularities.

## Smoother, Tighter Skin
